DIRECTOR OF AGRICULTURE
CROP REPORTING SERVICE
PUNJAB, LAHORE

CROP SITUATION REPORT OF THE PUNJAB FOR THE FORTNIGHT ENDING 15th JANUARY, 2019.

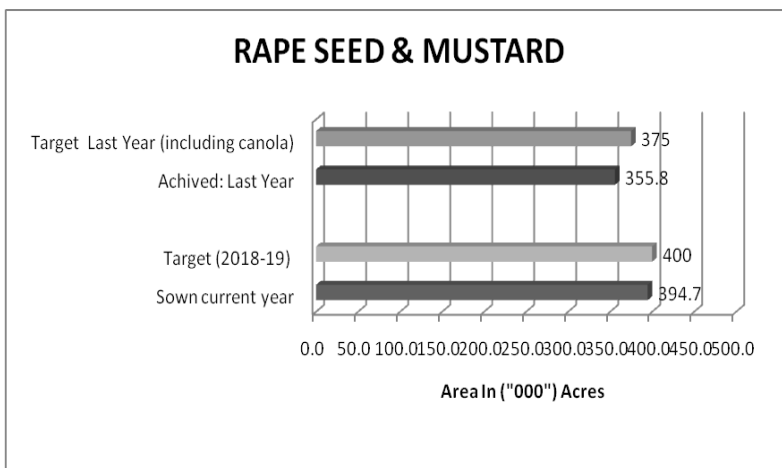

Sowing/condition

The germination and growth of crop is observed/ reported satisfactory. The rain received during the fortnight proved beneficial for crop. First irrigation, application of fertilizer and spraying of weedcidies to crop remained in progress during the fortnight. The application of fertilizer is also in progress.

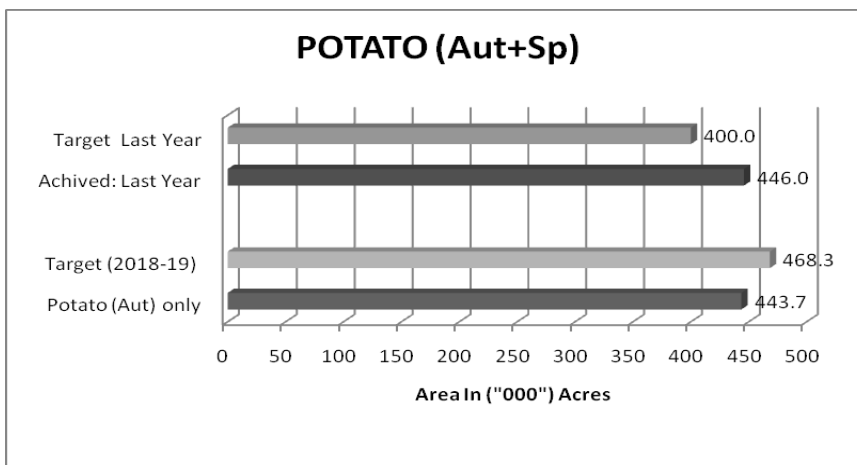

Sowing/Condition

The growth of crop is reported satisfactory so far. The rain received during the fortnight proved beneficial for crop especially in Thal. However, more rain is required for healthy yield of crop.

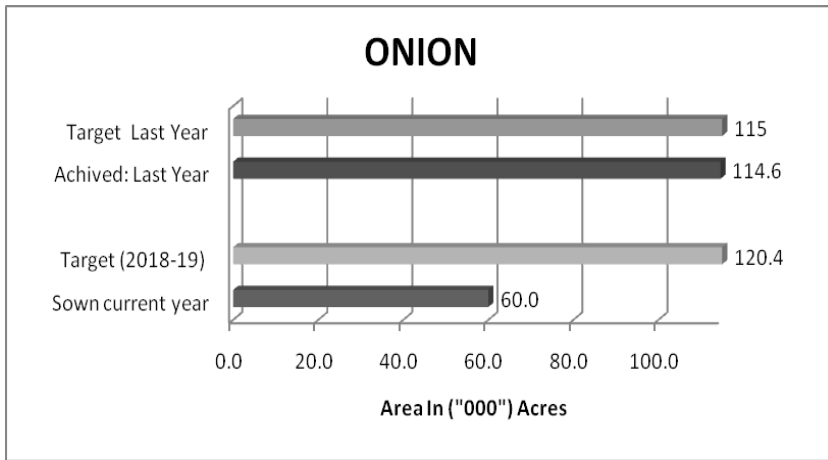

Sowing/Condition

The sowing of different Oilseed crops has been completed. The growth of different Oilseed crops is reported/ observed satisfactory. The early sown crop is on grain formation stage while mid and late sown crop is at flowering & pod formation stage.

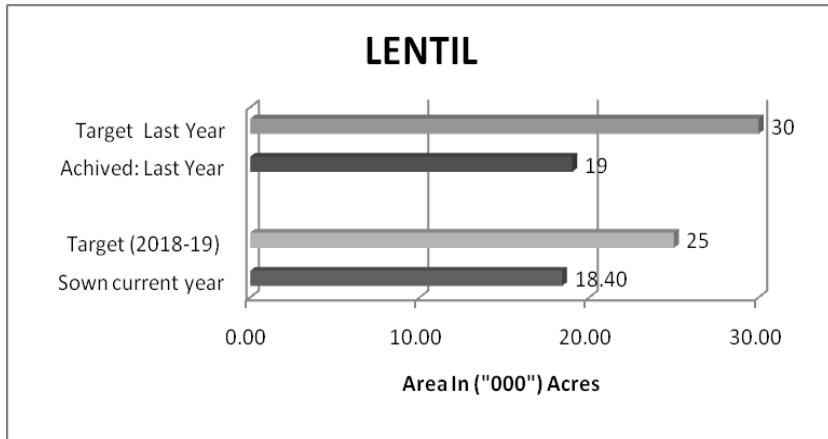

Sowing/Condition

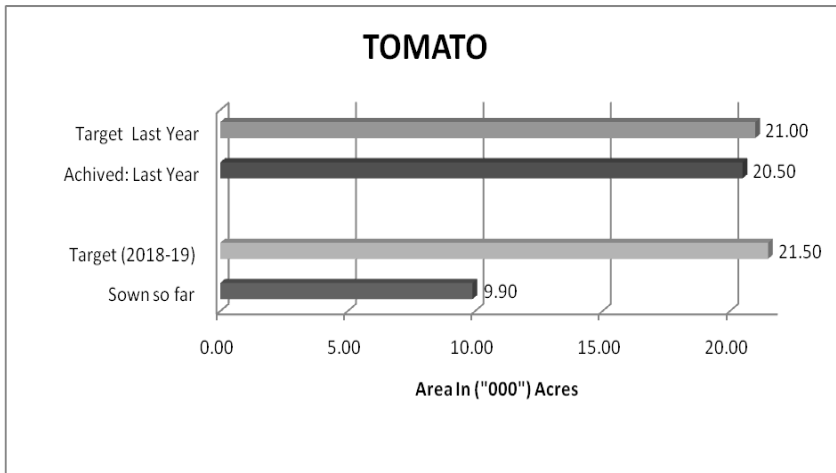

The general condition of the potato crop is reported satisfactory. Digging of Potato crop remained in progress in potato growing districts during the fortnight. It is reported that area under Potato (Aut) crop revealed an increase of 1.75% over last year due to availability of its seeds at low rates.

Sowing/Condition	Sowing of Onion (autumn) crop is in progress. The germination and growth is reported satisfactory.
-------------------------	--

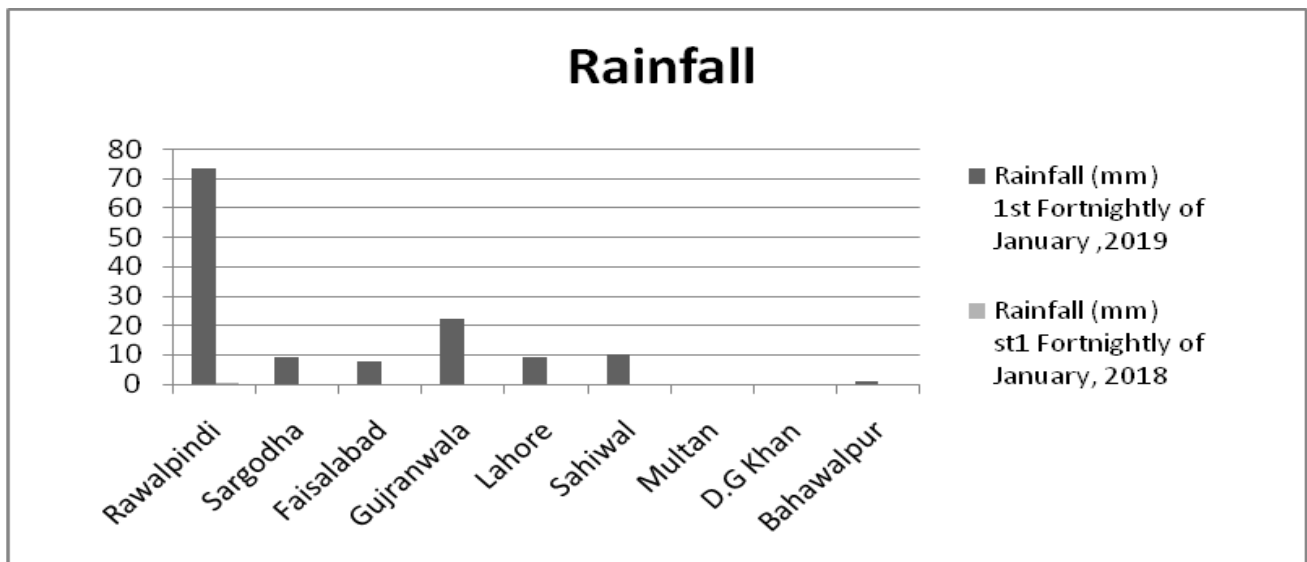

Sowing/Condition	Sowing of crop has been completed. The germination and growth of crop is reported satisfactory.
-------------------------	---

Sowing/condition	The sowing of the Tomato crop has completed in District Khushab but in other part of the Punjab its sowing will start after the month of January.
